

5 IDIS Online Reports Interface

This section describes the user interface for running IDIS Online predefined reports.

5.1 User Authorizations

Your IDIS user name is linked to a specific authorization level in IDIS. Unless you are an IDIS system administrator, you have the general user authorization. General users are authorized to **run, display, customize, save, export, and print** any report that is available in the **Shared Reports** folder.

5.2 IDIS Reports Home Page

You will use the following features the most often:

- **Shared Reports** – Displays the predefined reports. Anyone with access to IDIS Online is authorized to view, customize, save, export, and print these reports.
- **My Reports** – Every IDIS user has his or her own location to store reports that have been customized to meet specific needs. When a report is saved to **My Reports**, only the authorized user can access it.
- **History List** – IDIS users have the ability to run and store report results in their **History List** for future retrieval. This enables users to refer back to the report several times throughout the day without having to re-run the report.
- Some reports may take several minutes to run. This feature allows you to have your report continue to run if you decide you would like to perform other activities in reports or IDIS while the report is running.
- **Preferences** – Allows users to customize various features of the reporting application.

5.3 Toolbar and Buttons

Toolbar

The toolbar is located above your report results. It contains several buttons that you can use to customize, save, export, and print your report.
