

9 Logging Out

Currently, when the **Logout** button is selected from within the Reports the Login screen shown in Section 2 will appear. The user will be required to re-authenticate by entering their username and password again to return to the IDIS Online application.

Note: The **Logout** feature is still under construction.

The user also has the option of closing the Reports window by selecting the **X** in the upper right corner of the window. This option will result in the same scenario described in the above paragraph.

According to HUD policy, you will be automatically logged out of IDIS Online if your session is inactive for more than **20 minutes**. If you are running a report that takes longer than 20 minutes, save the report in your **History** folder so that you do not lose the report if your session does time out after 20 minutes.
