1 Introduction

The **Integrated Disbursement and Information System (IDIS) Online** project is sponsored by the Office of Community Planning and Development (CPD) within the Department of Housing and Urban Development (HUD). IDIS Online is a real-time, web-based computer application that provides financial disbursement, tracking, and reporting activities for the CPD formula grant and American Recovery and Reinvestment Act (ARRA) grant programs. Its primary purpose is to enable HUD grantees to drawdown program funds and report on the activities and accomplishments outlined in each jurisdiction's Consolidated Plan. IDIS Online provides timely performance information regarding accomplishments achieved with use of program funds, pursuant to the Government Performance and Results Act of 1993 (GPRA) and the specific requirements of the formula programs administered by CPD. IDIS Online is used by the following grant programs:

- Community Development Block Grant Program (CDBG)
- HOME Investment Partnership Program (HOME)
- Emergency Solutions Grants (ESG)
- Housing Opportunities for Persons with AIDS (HOPWA)
- Housing Opportunities for Persons with AIDS Competitive Grants (HOPWA-C)
- Housing Trust Fund (HTF)
- Tax Credit Assistance Program (TCAP)*
- Homeless Prevention and Rapid Re-housing Program (HPRP)*
- Community Development Block Grant Recovery Program (CDBG-R)*

**American Recovery and Reinvestment Act (ARRA) grant program.*

4 Running Reports

This section first describes how to run a report that does not require input parameters, and then describes how to run a report that does require input parameters; also you will learn how to retrieve reports from your History List.

Before running a report, you should know:

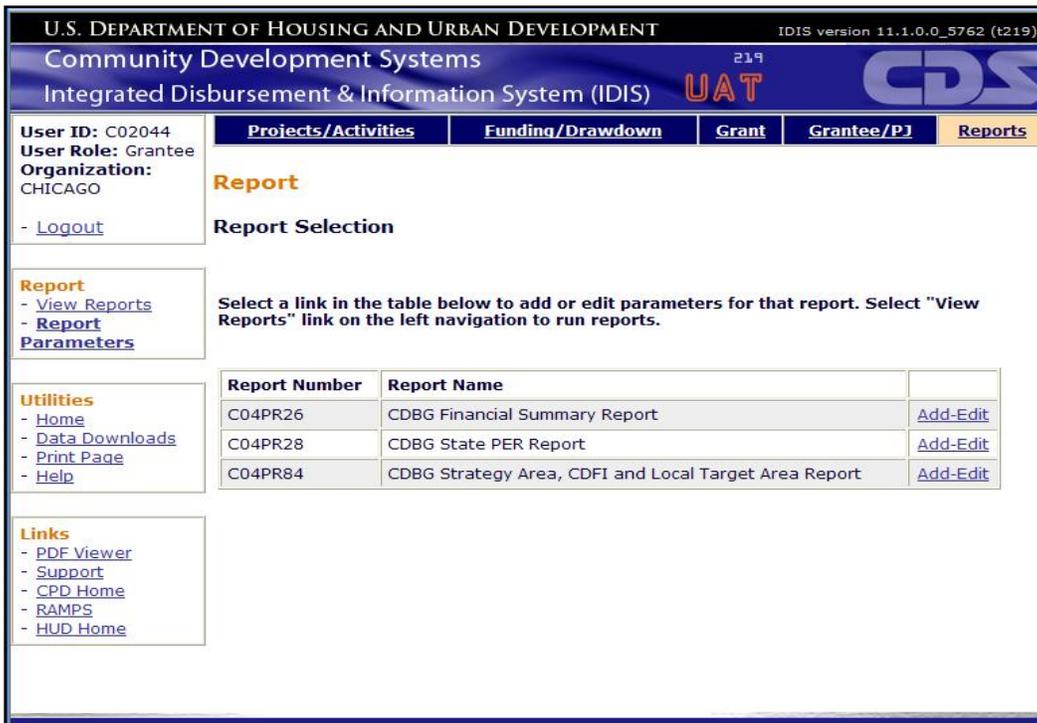

- A daily refresh of data is done at night—so if you make any changes to the data in the IDIS Online application, those changes will not appear in the report until the next day.
- Many of the reports consist of more than one part.
- Each report part must be run separately.
- Reports may take longer to execute initially in MicroStrategy compared to IDIS Legacy, however, all further manipulation and formatting of the report will be easier and quicker for the user in the new IDIS using MicroStrategy functionality.
- One of the many improved features MicroStrategy report execution has to offer is that the report execution combines the multiple separate steps a user must complete in the IDIS Legacy application. For example, in IDIS Legacy, a user must run the report, download the report from a separate FTP site, and format the report.

4.1 Running a Report without Input Parameters

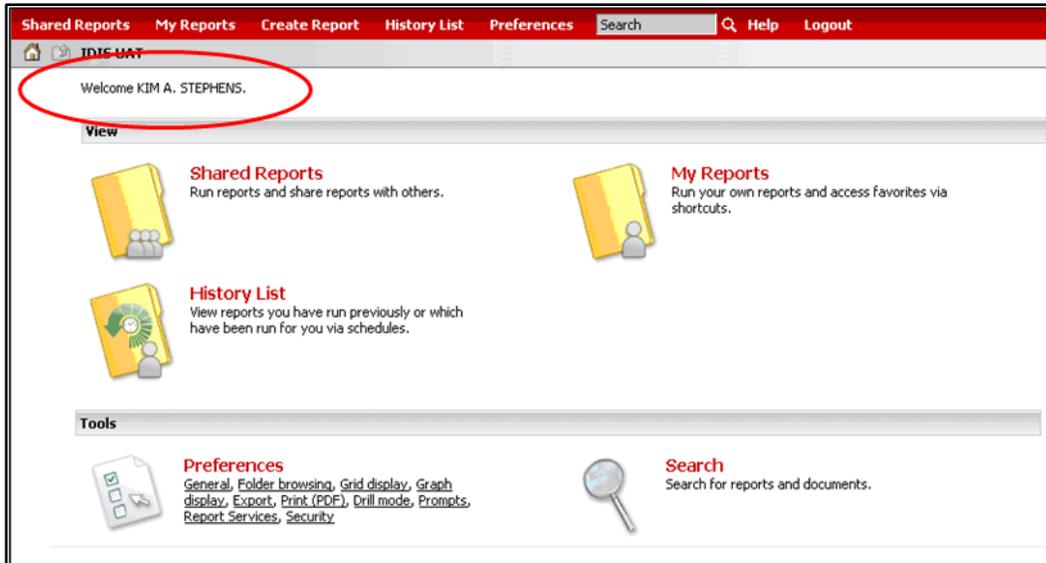

1. Log in to the IDIS Online application window as described in *Section 2, accessing the IDIS Online Application*.
2. Click the **Reports** link in the menu bar.

Note: Not all reports require parameters.

- For **Grantees** only, the **Report Parameters** page is displayed:
 - For Headquarter (HQ) and Field Office (FO) users, the **Report Parameters** page is NOT displayed. Instead, the window shown following Step 3 appears.
3. Click **View Reports** in the left menu.

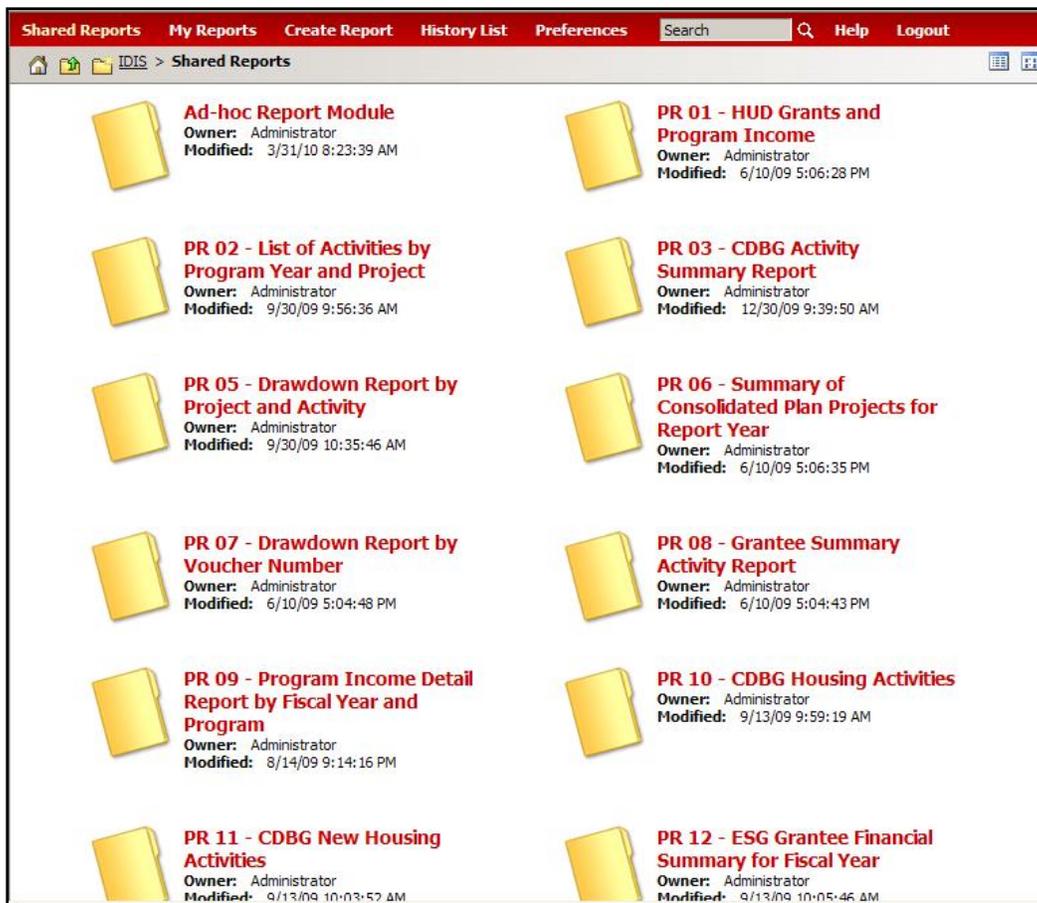

4. Select the IDIS file name or icon.
 - The **IDIS Reports** main page is displayed.
 - Your name will appear in the greeting directly below the menu bar. If your name does not appear or an incorrect name is displayed, contact your IDIS system administrator.

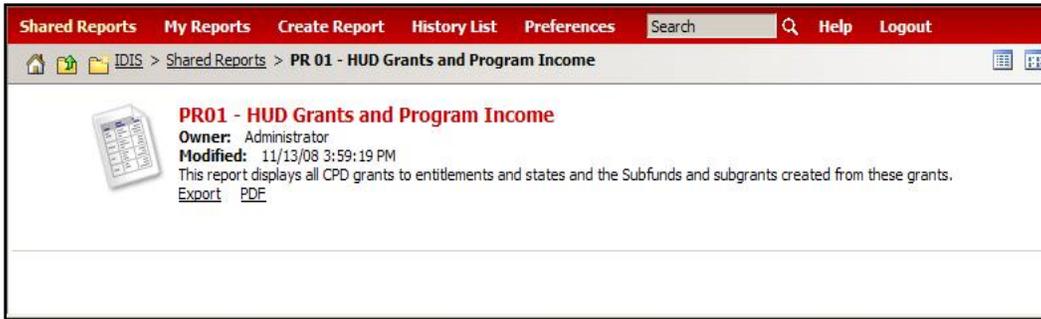

5. Click the **Shared Reports** name or icon.

The **Shared Reports** folder displays a folder for each of the predefined reports.

6. Select the **folder name or icon** for the report you wish to run.

The following example shows the **PR 01 – HUD Grants and Program Income** folder.

The selected folder opens and lists the available reports. Based on the nature of the report, a report may be broken down into multiple parts.

- In the above example, the report shown, PR 01, only has one part.
- If a report has multiple parts, each part is listed here as a separate report.
- Each report part must be run separately.

7. Select the desired report part to run.

You may see the following message indicating to “Please wait...” while the system is Processing Request. In the image below you will notice there is also a Cancel button to stop the report from running.

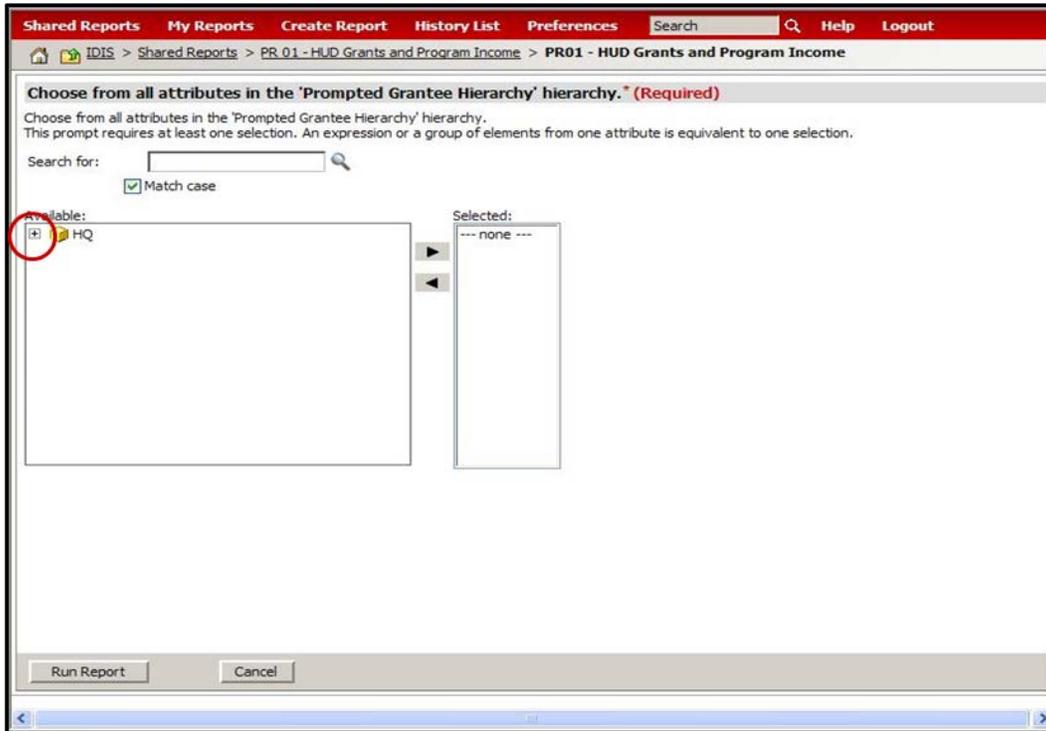

The **Prompt** page is displayed. It allows you to select the entity for which you want to run the report.

4.1.1 Scenario 1 – Headquarter (HQ) Users

The example described below assumes the user has logged in as a Headquarter (HQ) user. HQ users may run a report for any Field Office (FO) and/or any Grantee.

1. Select the plus symbol in front of the HQ box shown in the screen below.

A prompt will appear with the text **All**.

2. Select the plus symbol for the **All** prompt.

A prompt will appear with the text **Field Office**.

3. Select the plus symbol for **Field Office**.

The Hierarchy will display the list of all the Field Offices.

4. For those reports which are designed to produce a field office version, select the desired Field Office and select the arrow pointing right. Only one field office at a time should be selected and run.

Your selection will appear in the **Selected:** box to the right.

For those reports that have built-in reporting by Field Office, (example: PR80, PR85), the Run Report selection will produce report data for the Field Office selected in the **Selected** box to the right.

5. HQ users also have the ability to run a report for a single Grantee.

Select the plus symbol next to the desired Field Office name.

A prompt will appear with the text **Prompted Grantees**.

6. Select the plus symbol for **Prompted Grantees**.

The Hierarchy will display the list of all the Grantees in that Field Office.

7. Select the desired Grantee name and select the arrow pointing right.

Your selection appears in the **Selected** box to the right as shown below.

The **Run Report** selection will produce report data for the selected Grantee in the **Selected** box to the right.

Hint: Since there are many grantees to a single field office, you can also use the “Search for” feature at the top of the prompt screen to look for a specific grantee. Enter all or part of the grantee’s name. Uncheck the “Match Case” check box. Click on the “magnifying glass” icon. The system will return a list of all grantees within the field office that match the search criteria you entered.

4.1.2 Scenario 2 – Field Office (FO) Users

The example described below assumes the user has logged in as Field Office (FO) user. FO users are limited to selecting only Grantees which fall under the purview of their Field Office.

The HQ box will still appear even though you are logged in as a Field Office.

1. Select the plus symbol in front of the **HQ** box shown in the screen above.
A prompt will appear with the text **All**.
2. Select the plus symbol for the **All** prompt.
A prompt will appear with the text **Field Office**.
3. Select the plus symbol for **Field Office**.

5 IDIS Online Reports Interface

This section describes the user interface for running IDIS Online predefined reports.

5.1 User Authorizations

Your IDIS user name is linked to a specific authorization level in IDIS. Unless you are an IDIS system administrator, you have the general user authorization. General users are authorized to **run, display, customize, save, export, and print** any report that is available in the **Shared Reports** folder.

5.2 IDIS Reports Home Page

You will use the following features the most often:

- **Shared Reports** – Displays the predefined reports. Anyone with access to IDIS Online is authorized to view, customize, save, export, and print these reports.
- **My Reports** – Every IDIS user has his or her own location to store reports that have been customized to meet specific needs. When a report is saved to **My Reports**, only the authorized user can access it.
- **History List** – IDIS users have the ability to run and store report results in their **History List** for future retrieval. This enables users to refer back to the report several times throughout the day without having to re-run the report.
- Some reports may take several minutes to run. This feature allows you to have your report continue to run if you decide you would like to perform other activities in reports or IDIS while the report is running.
- **Preferences** – Allows users to customize various features of the reporting application.

5.3 Toolbar and Buttons

6 Customizing Your Reports

In IDIS some reports can be customized to your preference. In this section you will learn the types of reports that you can find in the IDIS reporting system, which reports you can customize, and the different features available for customization.

6.1 Types of Reports

There are two types of reports in IDIS: Document Reports and Grid Reports. You can tell the difference between them by looking at the icons located at the left side of the report's name.

Document Reports

Document Reports are preformatted reports. You **cannot** make any customizations to them. This type of report is ready to be saved or printed for your review.

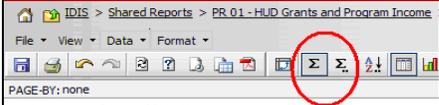

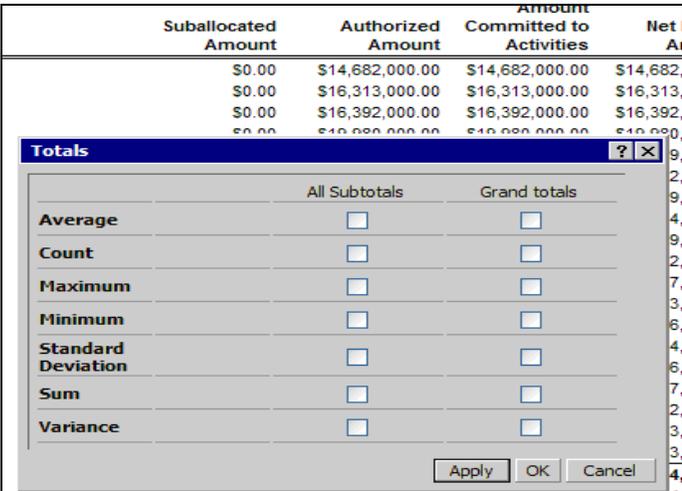

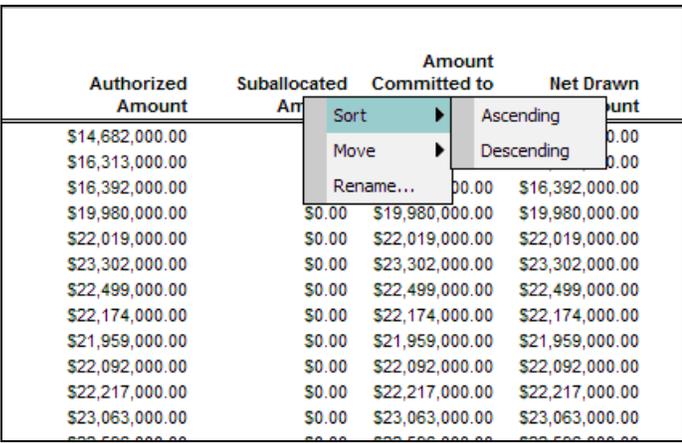

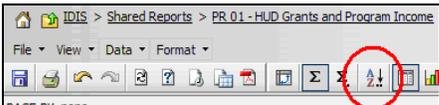

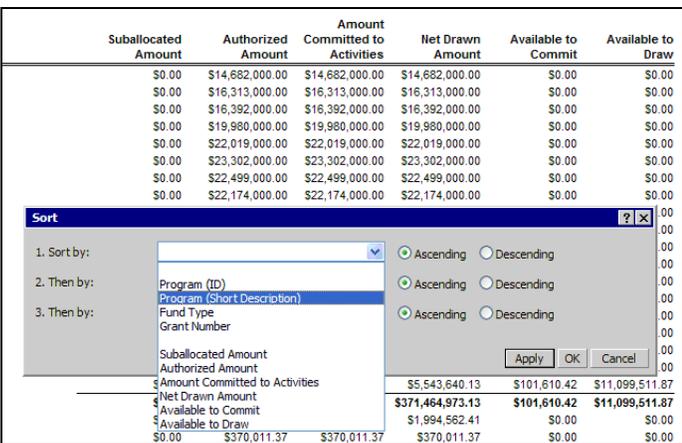

Grid Reports

Grid Reports are reports that you can customized in different ways. Section 5.2 will explain to you the features that you can use to customize your Grid Reports.

6.2 Grid Reports Customization

You can customize the content and appearance of your Grid Reports. This section describes some of the key features that you can use to customize your Grid Reports. Table 3 describes the most useful features customizing your grid reports.

Alternatively, you can export reports to PDF by selecting the **PDF** icon as shown on the right.

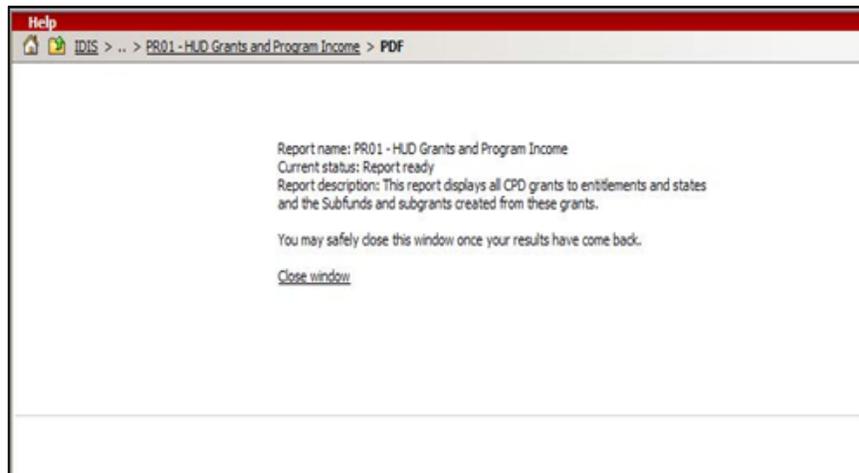

A list of export options is displayed.

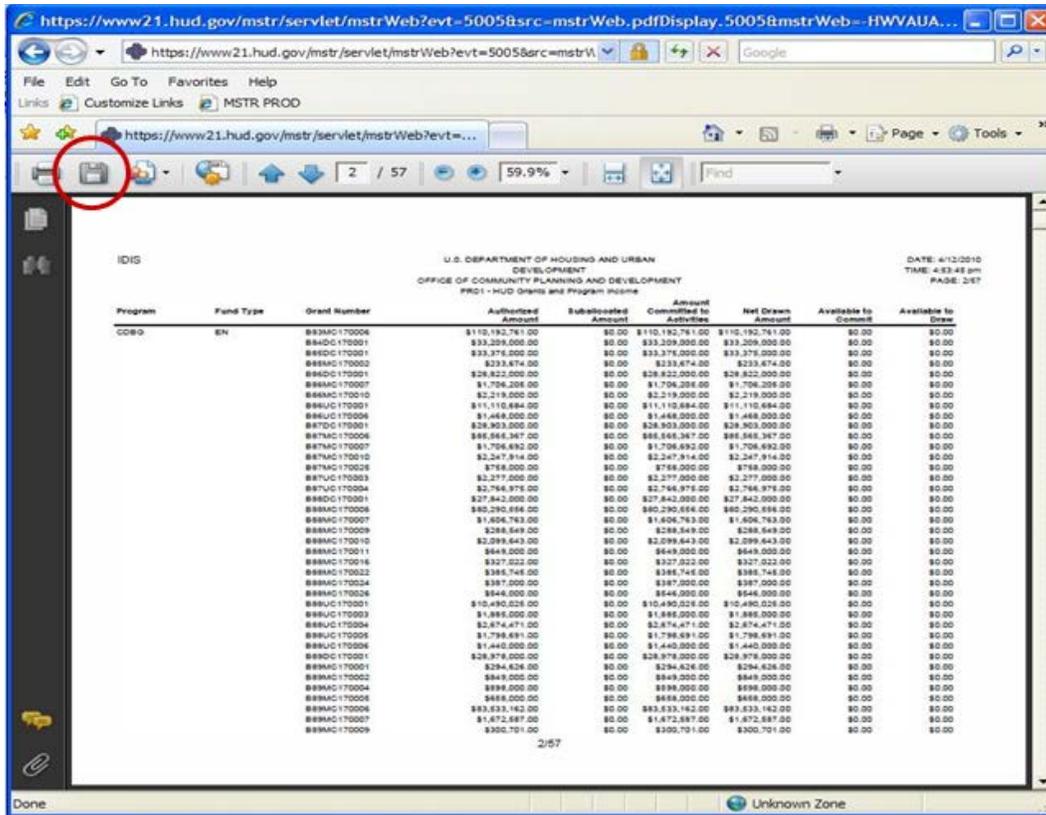

8. Select the desired options from the screen above.
9. Click the **Export** button in the lower right corner.

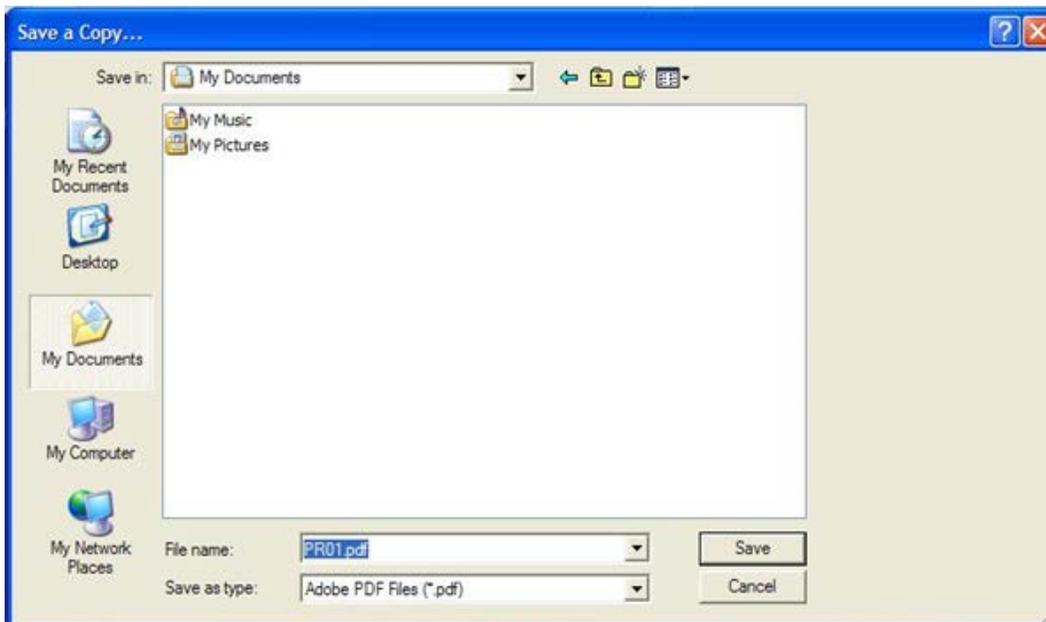

A transition window will appear.

10. The PDF version of the report will be displayed in a separate window. To save the report file to your computer or other location, select the **Save** icon shown below.

9 Logging Out

Currently, when the **Logout** button is selected from within the Reports the Login screen shown in Section 2 will appear. The user will be required to re-authenticate by entering their username and password again to return to the IDIS Online application.

Note: The **Logout** feature is still under construction.

The user also has the option of closing the Reports window by selecting the **X** in the upper right corner of the window. This option will result in the same scenario described in the above paragraph.

According to HUD policy, you will be automatically logged out of IDIS Online if your session is inactive for more than **20 minutes**. If you are running a report that takes longer than 20 minutes, save the report in your **History** folder so that you do not lose the report if your session does time out after 20 minutes.

10 Resolving Problems Trying to Run IDIS Reports

In this section are listed the most common problems found by users when trying to run IDIS Reports and their possible resolutions.

Please try to put them into action before calling to TAU when they apply.

If the problem persists, please provide screen shots or the error messages that are displayed and send them to the TAU. Contact the TAU at 1-877-483-8282 to receive detailed information.

Case 1 - Grantee who had his/her password reset is still unable to log into IDIS Reports.

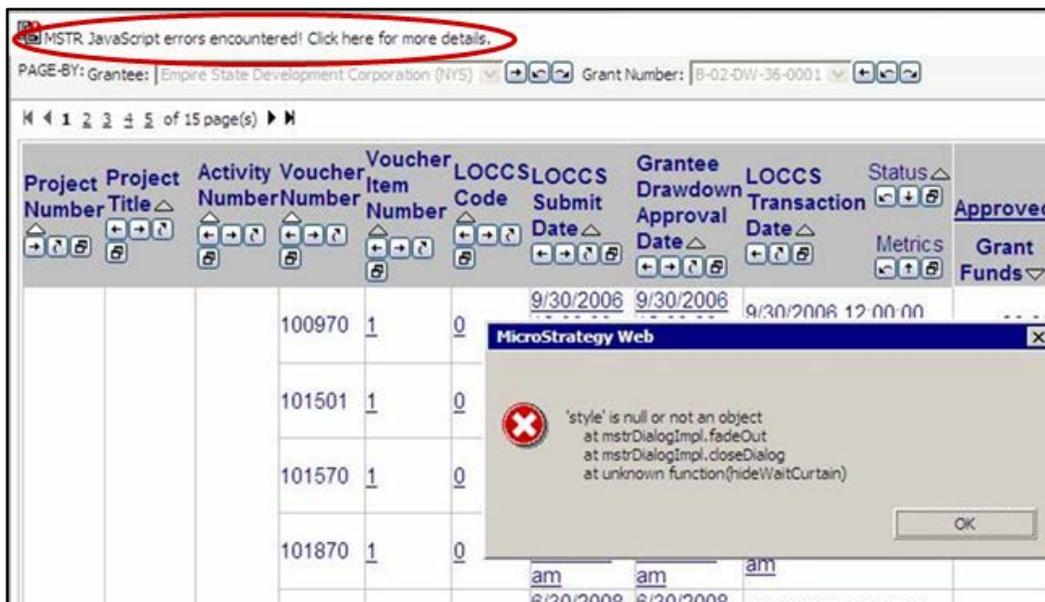

Possible Resolution:

1. Open up an Internet Explorer (IE) browser
2. On the toolbar click -> Tools -> Internet Options ->
3. There should be something on the General tab labeled as "Browsing History".
4. Please click on delete -> click ok/delete to choose default options.
5. In this step you are deleting temporary files, history, cookies, saved passwords, and web information.
6. Wait until all items have been deleted, and then close out of all browsers (including this browser).
7. Once again open up an IE browser and test your access one more time.

Case 2 - User receives the following error using Internet Explorer (IE) 8**:

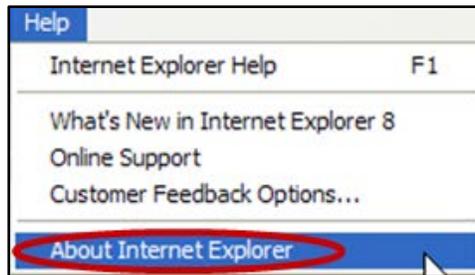

"MicroStrategy JavaScript error encountered! Click here for more details."

A pop up window shows the following:

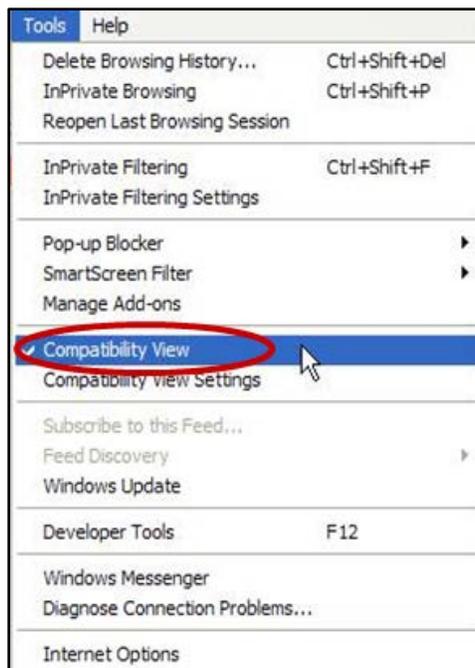

Note: To find out if you are using IE 8 do the following:

Open up an Internet Explorer (IE) Browser -> Help -> About Internet Explorer

**Possible Resolutions:**

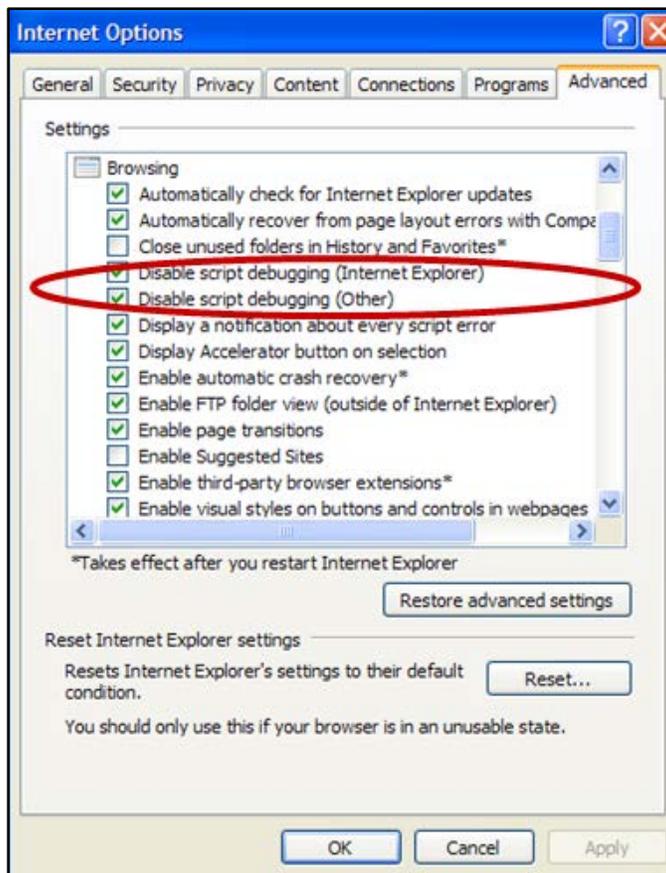

1. Check to ensure Internet Explorer (IE) Compatibility View is turned on:

Open up an IE Browser -> Tools -> Compatibility View -> *This should be checked off*

2. Disable 'Script Debugging (Internet Explorer) & Script Debugging (Other)' in IE:

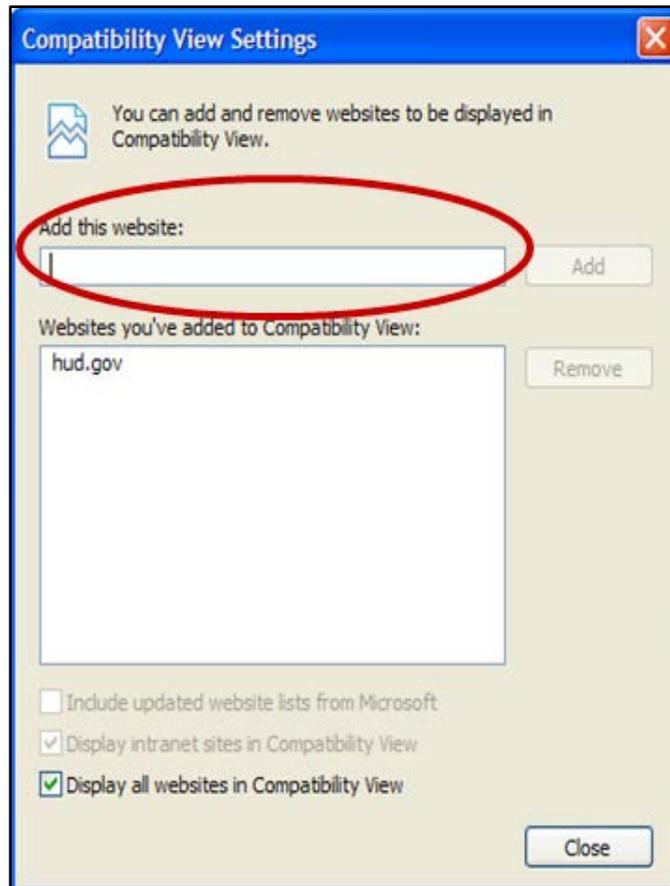

Open up an IE Browser -> Tools -> Internet Options -> Advanced Tab -> *Ensure the two items below are checked off*

3. Verify the IE Compatibility settings are properly set:

Open up an IE Browser -> Tools -> Compatibility View Settings ->

- i. Under 'Add this website' write 'hud.gov' (without quotes)
- ii. Click Add
- iii. Check 'Display all websites in Compatibility View'
- iv. Click Close

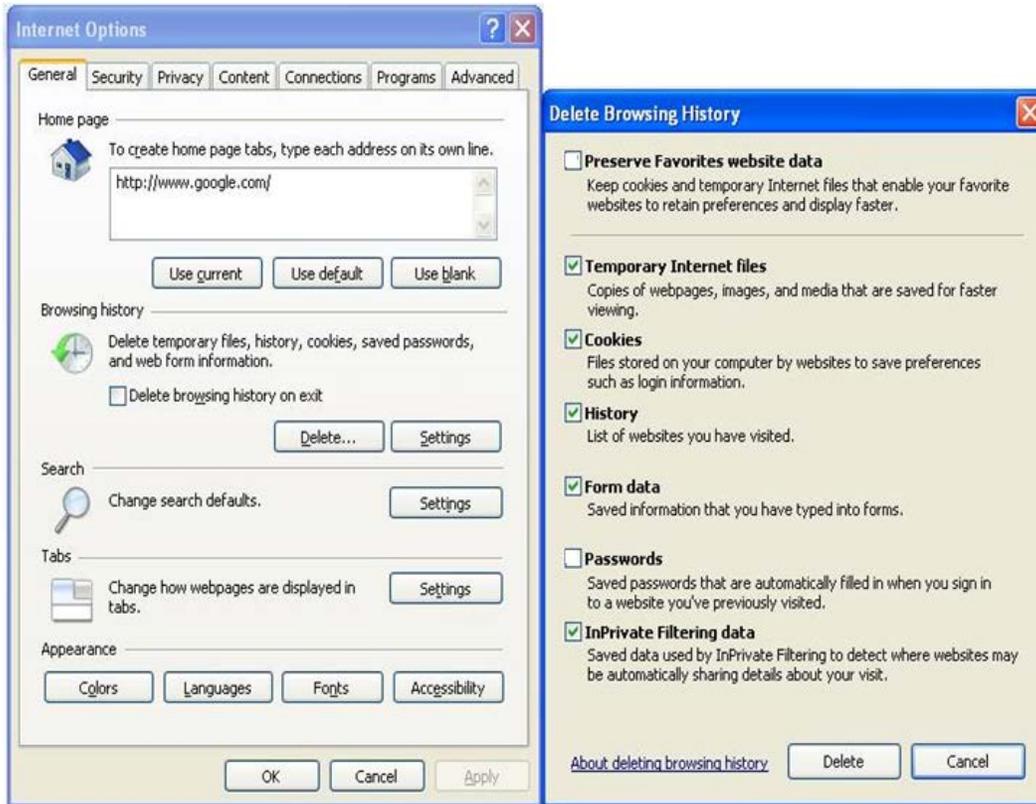

4. Purge the IE Browser History Cache:

Open up an IE Browser -> Tools -> Internet Options ->

- i. Click 'Delete' under General Tab
- ii. Click all five categories as shown below
- iii. Click 'Delete' as shown below

Note: You may have to wait a few minutes for this to complete. Close out of all browsers once completed and then go back into IE and re-test.

11 IDIS Reports

All IDIS reports are organized in folders. Inside each folder you can find at least one report. The report(s) can be: Grid Report(s) or Document Report(s). (Refer to Section 5 for type of reports).

This section shows the 64 folders with their corresponding reports available in IDIS. You will also find the report type, report description, run time parameters and sorting sequence for each report.

Due to space limitations, only a portion of each report’s output is shown.

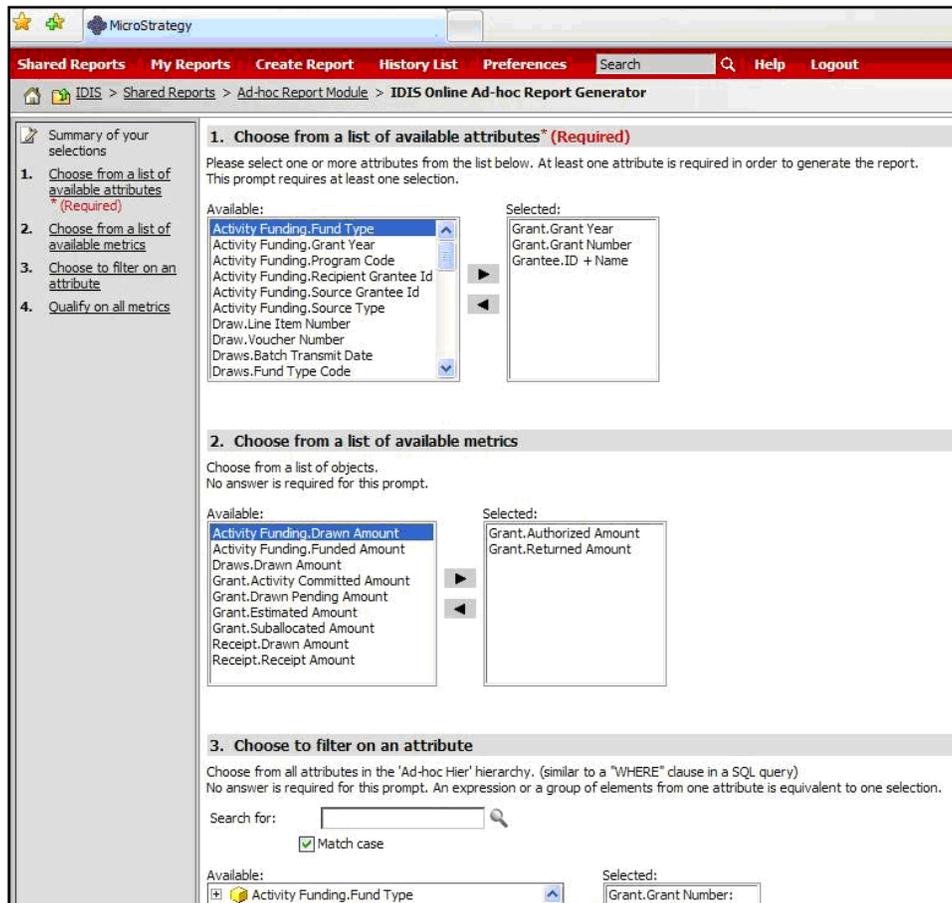

11.1 Ad-hoc Report Module

The IDIS Ad-hoc report module allows users to define and generate report queries on-the-fly by selecting from various buckets of objects and filters.

Note: Only users who have been granted the “ad-hoc” privilege in IDIS Online will be able to see and use this functionality. If you need access to the Ad-hoc Report Module please contact your Help Desk representative.

Folder Content

The Ad-hoc folder contains a report generator screen which must first be filled out by the user before the report is executed. Below is a screenshot of the Ad-hoc design view along with several objects that have been selected to generate the report.

Unlike regular reports, in the Ad-hoc Report module users will first need to select the objects they want to include on the report. There are 4 main buckets of objects available:

Attributes – includes the list of objects that the user wants to report on. For example: Grant Number, Grant Year, etc.

Metrics – includes calculation based objects that the user wants report on AND are numeric fields that can be aggregated. For example: Drawn Amount, Returned Amount, etc.

Choose a filter – allows the user to filter for a specific element or group of elements. For example if the user wants to run a report only for a specific Grant Number or only for a specific Grantee

Qualify on a metric – allows the user to apply a certain rule based on a metric thus reducing the result set of the report. For example: Drawn Amount > 10,000. This filter will force the report to only return records for which the Drawn Amount is greater than \$10,000.

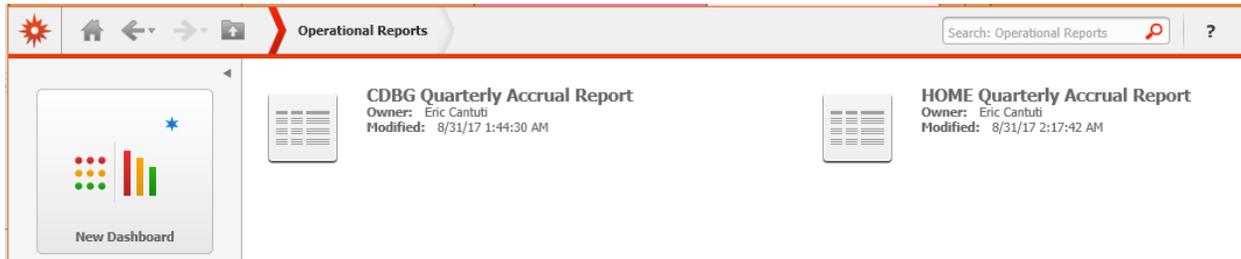

Grant Grant Year	Grant Grant Number	Grantee.ID + Name	Metrics	Grant.Authorized Amount	Grant.Returned Amount
1995	AL09H95F01			825,000	0
1996	AL09H96F02			825,000	0
1997	AL09H97F023	ALABAMA		986,000	0
1998	AL09H98F999	ALABAMA		1,042,000	0
1999	AL09H99F001	BIRMINGHAM		365,000	0
	AL09H99F999	ALABAMA		796,000	(14,394)
2000	ALH00F001	BIRMINGHAM		384,000	0
	ALH00F999	ALABAMA		843,000	0
2001	ALH01F001	BIRMINGHAM		429,000	0
	ALH01F999	ALABAMA		964,000	0

Once the report results are displayed users can manipulate the report the same as any other Grid Report. Please refer to the appropriate section to review additional functionality.

PR03 – Main BOSMAC Report

Report Type:

Grid Report (Refer to Section 5 for types of reports).

Description:

The PR03 Main BOSMAC Report mimics the report that BOSMAC in legacy IDIS used to produce. After you had that report from the legacy IDIS BOSMAC, there were then tabs at the bottom of the spreadsheet that allowed you to produce a spreadsheet for the data in a cell of the main BOSMAC report (which used to go by the name of CAPER). In the current report, you have to click on the column header or the number in a cell to create the spreadsheet that gives the detail behind the number in the cell (See Report PR03 BOSMAC No.2 below). The BOSMAC report has run this way for all grantees since our 9/24/10 release. You can reach all columns by clicking the left and/or right arrows seen on the Report PR03 BOSMAC View No. 1.

This report provides the next information:

- Count of PR03 Activities of all years that have not been cancelled
- Count of PR03 Activities of prior years that have not been cancelled
- Count of PR03 Activities of prior years not complete
- Count of PR03 prior years Activities NOT Completed and WITHOUT Accomplishments Narrative

PR 08 – Grantee Summary Activity Report

Report Type:

Grid Report (Refer to Section 5 for types of reports).

Description:

This report displays activities by grantee activity id, their statuses, the committed and disbursed amounts, and the date of the last draw. (See Report PR08 View No.1 below).

The system provides the ability for a user to restrict report output based on activity status (open, cancelled, completed) through the run-time parameters.

Run-Time Parameters

Select from the Prompted Grantee Hierarchy: Headquarters (HQ), Field Office (FO) or Grantee. (Refer to Section 3 for running a report).

Optional: Activity Status and/or Matrix Code.

If you enter a specific Activity Status and/or Matrix Code on the Report Parameter screen, the display will be limited to activities that meet your criteria. Leave the fields blank to generate a report that includes all activities, regardless of activity status and/or matrix code.

Sort Sequence

By default the report is sorted by: Grantee Activity Number in ascending order. (Refer to Section 5 for Grid Reports Customization).

Report

PR 13 – CDBG Float-Funded Activities

Report Type:

Document Report (Refer to Section 5 for type of reports).

Description:

This report provides information on CDBG activities that were identified as being “float-funded”.

Float funding is a technique based on the premise that some activities do not require funds immediately and that a recipient’s unexpended CDBG funds will contain a balance (the float) that can be used on a

temporary basis to fund other activities. Activities financed with float loans must generate a sufficient level of program income within an established time frame to enable the grantee to carry out the activities that were initially programmed. (See Report PR13 View No.1 below).

Activities that have been cancelled without any draws are not included in the report.

Run-Time Parameters

Select from the Prompted Grantee Hierarchy: Headquarters (HQ), Field Office (FO) or Grantee. (Refer to Section 3 for running a report).

Optional: You can select a specific Agency Tag, Funding Agency and/or Program Year from the Grouping section after you run your report. By default the (All) selection has been made from the drop down boxes.

On the top left side of the window, over the report results, you will find the "Grouping" section (See Report PR13 View No.2 below). You have the option to narrow your report results by choosing a specific Agency Tag, Funding Agency and/or Program Year. The report will show the results at the level of detail selected in the "Grouping" section.

Report

PR 15 – Cost per HOME-Assisted Unit/Family

Report Type:

Document Report (Refer to Section 5 for type of reports).

Description:

This report provides a breakdown by activity type of the number of units assisted, total costs, and HOME subsidies for committed and completed activities. The report also reports TBRA units assisted, HOME subsidy, and subsidy amount per family.

It is divided into two sections:

All Years – Commitments

All Years – Completions

For all but TBRA, an activity is in the Completions section only if its status is “Complete”; otherwise it is included in the Commitments section. A TBRA activity is included in Completions if money has been disbursed; otherwise, it is included in Commitments.

Within each section, reporting is by these activity types: New Construction Only, Rehab Only, Acquisition Only, Acquisition & Rehabilitation, Acquisition & New Construction, and TBRA. (See Report PR15 View No.1 below).

Run-Time Parameters

Select from the Prompted Grantee Hierarchy: Headquarters (HQ), Field Office (FO) or Grantee. (Refer to Section 3 for running a report).

Optional: You can select a specific Agency Tag, Funding Agency and/or Activity Category from the Grouping section after you run your report. By default the (All) selection has been made from the drop down boxes.

On the top left side of the window, over the report results, you will find the “Grouping” section. You have the option to narrow your report results by choosing a specific Agency Tag, Funding Agency and/or Activity Category. The report will show the results at the level of detail selected in the “Grouping” section. (See Report PR15 View No.2 below).

Sort Sequence

For all but TBRA, assignment of an activity to a particular type is first by the Activity Type code. Activities that have had TBRA-specific information entered on the HOME TBRA set up screen are included in the last category.

PR 27 – Status of HOME Grants - Entitlement

Report Type:

Document Report (Refer to Section 5 for types of reports).

Description:

The *PR27 Status of HOME Grants Report* contains financial information on HOME grants, subgrants, and subfunds. The report is used to identify PJs' total commitments and disbursements in each grant year or program year, as applicable. In addition, the PR27 provides separate pages for each fund type that PJs may use to carry out their HOME Programs, including program income (PI), program income for administration (PA), ineligible use repayments to the local account (IU), funds recaptured from PJs' homebuyer programs (HP), administration (AD), CHDO set-aside funds (CR), CHDO predevelopment loans (CL), CHDO operating costs (CO), CHDO capacity building (CC), and subgrants to State recipients and subrecipients (SU) - see Report PR27a – View No.1 below. HUD made significant changes to the PR27 on December 22, 2014. These changes were made due to revisions to the HOME Final Rule and to better align with functionality in IDIS.

The PR27 Report Entitlement version is available for Entitled non-State HOME PJs (See Report PR27a – View No.1 below).

11.30 PR 29 – Cash on Hand Quarterly Report

PR29 - Cash on Hand Report

The report can be run for National, Field Office and Grantee

2 prompts Report Start Date and report End Date that the user will enter

The report will show only the Grantees that have data.

Depending on the Report Start Date and Report End Date the report will show a page with the summary of all the Quarters during that period and then a detail page for each quarter.

If a Grantee has only 1 quarter during that period only the detail page will show.

For the summary section:

For the cash on hand beginning balances, the report should not aggregate all period together.

If we run report for multiple quarters, the beginning balance is one point snapshot at the beginning of reporting period instead of aggregate all quarters together.

If is the same for the ending balance, it should be the snapshot of balance at the end period instead of add all the quarters together.

For example, if we run report from 1/1/2018 to 12/31/2018.

The summary section of beginning balance should be equal to the balance at 1/1/2018, which is the bargaining balance of first quarter. We can add all the cashed received and disbursed during the year (aggregate all the cash received and disbursed from all quarters).

PR 56 – Historical Period – FO Only

Report Type:

Document Report (Refer to Section 5 for type of reports).

Description:

The Historical Report provides the unadjusted 60-day drawdown ratio for grantees for the most recent five-year period. IDIS properly calculates the current timeliness ratio with the following exception: if the grantee revised a voucher since the last timeliness test -- that was originally paid before the test – the Timeliness Report treats the voucher as paid on the revised date, not the original date. In this case the report calculates a ratio that is slightly higher than the correct ratio. (See Report PR56b View No.1 below).

Report Type:

Document Report (Refer to Section 5 for type of reports).

Description:

Under the provisions of 24 CFR 570.902, a CDBG grantee is considered to be failing to carry out its CDBG activities in a timely manner if, 60 days prior to the end of the current program year, the balance in its line of credit exceeds 1.5 times the annual entitlement grant. This report tells grantees the minimum dollar amount they must draw prior to the next time the Timeliness test is conducted (60 days before the end of their program year). The current report provides timeliness data for both the prior program year and the current year. (See Report PR56c View No.1 below).

PR57 - CDBG State Timely Award of Funds

Report Type:

Document Report (Refer to Section 5 for type of reports).

Description:

This report is used by states as an indicator of funds status toward meeting the timely distribution requirement. Neither HUD nor the state should use the report as the final determination of timeliness.

The report shows the amount funded from the grant in question. The report is useful only on or before the timeliness due date, which is 15 months after the state signs the grant agreement (the grant award date in IDIS). Not all announced obligations are funded to activities in IDIS and some funded activities may be cancelled or unfunded and are not reflected in the report. The states need to supplement the report from their own records to establish compliance with the timeliness standard. HUD recognizes that, if the report is run after the timeliness date, funding actions taken subsequent to that date will be included. Field offices and states are alerted by HUD headquarters when to run the report within the timeliness period (See Report PR57 View No.1 below)

11.62.1 PR 70 – Activity Funding Detail Audit History Report

Report Type:

Grid Report (Refer to Section 5 for type of reports).

Description:

The PR70 Activity Funding Detail Audit History. Report provides audit history records by activities for all programs. The Report will include the current funding of the activities as well as its History if any.

The Report will show the Activity Funding Amount of the Activity from the 1st time it was created following with the history of the Activity when the Funding Amount was updated until the current funding of the activity.

The last record of the Activity represents the current funding amount of the activity. If an activity has only 1 record no changed has been made to this activity.

The Changed in Activity Funding Amount will show the delta between the Previous Activity Amount and the Activity Amount of the Activity. The Total Committed of the Changed in Activity Funding Amount should match the Activity Funding Amount of the current funding of the activity (the last record for the activity)

Description of the dates:

- Activity Funding Insert Date – timestamp of when the activity funding record was created. Activity was first funded by the specific funding source
- Activity Funding Last Update Date – timestamp of when the record for the particular activity funding (activity funded by the specific funding source) was most recently updated.
- Activity Funding Detail Insert Date - timestamp of when a particular funded amount record (associated with particular activity funding) was created.
- Activity Funding Detail Last Update Date - timestamp of when a particular funded amount record (associated with particular activity funding) was most recently updated. For example, funded amount was changed.

The PR70 Subfund shows the change in Authorized Amount by Grant Number and Fund Type. The first record is when the subfund was created followed by its history. If the report only displays one record it means that no change has been made for this subfund up to this point and it is the Current Authorized for this subfund.

The Change in Authorized Amount will show the delta between the Previous Authorized Amount.

11.62.3 PR 70 – Subgrant

The PR70 Subgrant provides audit history records by Grant Number, Fund Type and Recipient and therefore shows the change in Authorized Amount by Grant Number and Fund Type.

The first record of the Grant Number and Fund Type is the Current Authorized Amount of the Fund Type. The subsequent records then lists the Authorized amount for the same Fund Type for each recipient. The First record for the recipient indicates when the Authorized Amount was subgranted to the recipient for the 1st time followed by its history. If the report only displays one record it means that no change has been made up to this point.

The Change in Authorized Amount will show the difference between the Previous Authorized Amount. The Current Authorized Amount of the Recipient for the specific Fund Type should match the Authorized Amount of the last record for the Recipient for this Fund Type.

The Total Amount of the ‘Fund type’ Subgrants should be equal or less than the Current Authorized Amount Subfund of the Fund type.

PR110 - HTF Production Report

Release 11.21: Few changes

- Rename metrics throughout the document to read: HTF Completed Units
- Map the metric logic to use the HTF not all units count so both page 1 and 3 match.
- fix logo
- Page 4: The requirement for the Units By Ethnicity. The calculation for the "PERCENT" is $COUNT/TOTAL RESPONSES = PERCENT$
- Page 3: The Requirement for Page 3 under "HTF Cost per unit by Activity Type and Tenure (Based on Completions*)" The \$ amounts should not be \$ amounts*, they should be the number of completed units by Activity Type and Tenure type for the calculation of the average

Report Type:
