- 01 Get helpful tips to protect and maintain your home
- 02 Learn preventive maintenance procedures
- 03 Review resources for home repairs and improvements
- 04 Understand property taxes and insurance

POST-PURCHASE HOUSING COUNSELING WORKS

Post-Purchase Counseling helps homebuyers to succeed after they have purchased a home. Research indicates that through post-purchase counseling, home ownership is more sustainable and results in a significant decrease in delinquencies and foreclosures.

Clients counseled were 2.83 times more likely to receive a loan modification and were 70% less likely to re-default on their modified loan. Modifications of clients counseled saved \$732 per year compared to clients who did not receive counseling.
